Dear Sir:

In response to the Office Action dated 11/06/01, kindly amend the above-identified application as follows.

In the Claims:

Please amend claim 104 as follows:

104. (Amended) A wireless communication network system comprising at least three transceivers, each said transceiver having a transmitter and a receiver, one of said transceivers being structured and configured as a master device, said master device structured and configured to manage data transmission between said master device and said at least two other transceivers and direct data transmission between said at least two transceivers, wherein said transmitters are structured and configured to emit radio
